

WONDER ROOF of the century!

Keeps you  
**Cool** in Summer  
**Warm** in Winter  
and **Dry** in Rainy  
Season.

This unique product enables maximizing the utility of any open space where it is installed. The vergola openable roof is a fusion of a closed roof VERandah and an open roof perGOLA, hence the name Vergola.

Citadel offers you India's first and only complete louver roof & screen system. Openable roof & screen system's ability to control the elements makes it a natural choice over traditional coverings. With the flick of a switch, the louvers can be adjusted through 150 degrees to let the light and air in, to keep the sun out or to protect outdoor entertaining areas from rain.

Openable Roof

An all season friend

#### **INNOVATIVE CONSTRUCTION:**

Vergola has built-in air pockets by the louvers due to its unique double skinned construction. These unique air gaps provide extra insulation and create a gentle breeze on hot/stuffy days. It also prevents the sun's heat being transmitted to the underside, creating a cooler outdoor area.

#### **IDEAL FOR OUTDOOR AREAS:**

Restaurant, patios, bungalows, terrace flats, courtyards, swimming pool areas and a host of other applications to enable you to better utilize the natural conditions.

#### **COMMERCIAL APPLICATION:**

The system allows you all seasons use of outdoor open areas enhancing utility and productivity of your workshops, factories, restaurants, entertainment parks, and theme parks etc.

#### **SPECIFICATIONS:**

The product is constructed from steel frame and includes all required guttering and downpipes. Vergola louvers are available in precoated steel.

#### **ADAPTABLE:**

Our specialist team will tailor-make the system to suit your current design and preference. Special features can be added reinforcing your present style and architecture.

#### **DURABLE TO LAST LIFE TIME:**

The product is manufactured to withstand even the most severe weather conditions and give you a lifetime of service. It also has ability to resist squally winds.

#### **ENERGY EFFICIENT:**

The product will assist in reducing your heating and cooling cost by shielding exterior walls and windows previously exposed to strong sunlight.

#### **PROTECTION INTERIORS:**

Blinds and furnishing will have an extended life with control of light and sun exposure.

#### **COMPLETE SERVICE:**

The product is locally manufactured, ensuring the process from the initial planning to final installation to be fast, smooth and easy, with minimum efforts on your part.

Our quality control has established benchmarks for the manufacturing and after sales services associated with your Openable roof & screen system purchase.

Our commitment to quality is evidenced through a one year warranty on workmanship.

We manage the installation process from start to finish, to ensure minimal interruption and provide outstanding quality and service.

#### **This includes:**

Developing a quote that best suits you needs.

Planning a design that is appropriate to your living area requirement.

Complete installation and consulting with you to ensure complete satisfaction.
